CAREER OBJECTIVE

Computer Science Engineering student with strong foundations in Data Structures, Algorithms, and Object-Oriented Programming. Proficient in Java and Python, with experience in building applications and solving algorithmic problems. Interested in software development, system design, and scalable solutions, seeking to contribute to large-scale technology systems.

EDUCATION

B.Tech CSE (2027)

Shri Ramdeobaba College of Engineering and Management - 8.8/ 10

HSC (2023)

Purna International School, Vihirgaon, Nagpur - 77%

SSC (2021)

Kendriya Vidyalaya, Ajni, Nagpur - 91.2%

SKILLS

Programming Languages: Java, C, SQL, JavaScript

Frontend: HTML, CSS, JavaScript, React.js

Backend: Spring Boot, Node.js, Express.js, REST APIs, JWT Authentication

Databases: MySQL, OracleDB

Java Technologies: JDBC, Hibernate, Maven

Core CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, SDLC, Software Testing

Tools: Git, GitHub, VS Code

Soft Skills: Problem Solving, Team Collaboration, Communication Skills, Adaptability, Time Management

PROJECTS

Agri BaaZaar – Farmer-Dealer Platform

Developed 5+ reusable UI components using React.js and JavaScript.

Managed product listings and structured data for farmer and dealer users.

Clean Pulse

Developed frontend pages including a live analytics dashboard for waste monitoring.

Designed workflows for real-time waste tracking and reporting across multiple zones.

Diabetic Retinopathy Detection System | Group Project

Built a 5-class diabetic retinopathy detection system using deep learning and computer vision techniques.

Trained and evaluated 5+ CNN models on imbalanced retinal image datasets and applied ensemble learning to improve classification performance.

INTERNSHIPS

Power BI Intern-(Microsoft Elevate) | 02/2026 – 03/2026

Built 4 Power BI dashboards for KPI tracking and reporting

Performed data cleaning and transformation using Power Query

Analyzed 7,000+ records to identify trends and performance gaps

Web Development Intern (VaultofCodes) | 06/2025 – 07/2025

Improved 5 responsive web pages using HTML, CSS, JavaScript

Built interactive UI components, enhancing usability and user experience

AI-ML Virtual Internship (Google) | 04/2025 – 06/2025

Applied supervised and unsupervised machine learning techniques to build and evaluate predictive models using performance metrics.

Worked on model training, validation, and optimization to improve accuracy and overall model performance.

ACHIEVEMENTS AND CERTIFICATIONS

SIH Internal College Finalist.

3rd Prize Winner – Innoventure Hackathon

Solved 440+ DSA problems across multiple coding platforms.

Fundamentals of Deep Learning – NVIDIA (2026)

Python for Data Science, AI & Development – IBM (2025)

SQL for Beginners: Querying Data – Coursera (2025)
